

Fahad Bilal Saleem

Web Developer

Hi there! I am a Front-End Web Developer with 3+ years of experience in designing websites using HTML, CSS, and JavaScript, ReactJs and now getting a grip on VUEJs and UI/UX design. I have hand on experience with ES6, HTML5, CSS3, and Bootstrap. I create, update, optimize and modify websites according to the needs of my employers and customers. I had a good team and company previously and they supported me throughout my time at the company and I would love to join a successful, hard-working team to pursue a new role.
